PART II: UX RESEARCH AND EVALUATION
TOOLS AND TECHNIQUES

Chapter 3: Planning And Conducting Effective Stakeholder Interviews
Why Are Stakeholder Interviews Important? 50
When To Conduct Stakeholder Interviews 50
What Are Stakeholders? 50
Who Should You Talk To? 50
How To Conduct Stakeholder Interviews 52
Planning Stakeholder Interviews 52
Conducting Stakeholder Interviews 53
Analyzing And Reporting Your Findings 55
Reflect Your Clients’ Answers Back To Them 56
Generate A Shared Understanding 56
Resources 57

Chapter 4: Organizing And Running A Successful Requirements Workshop
Why Are Requirements Workshops Important? 60
When To Run A Requirements Workshop 60
How To Run A Requirements Workshop 61
Planning A Requirements Workshop 61
Running The Workshop 71
After The Workshop 71
Resources 72

Chapter 5: Planning, Conducting, And Analyzing A Usability Test
When To Perform A Usability Test 74
How Can You Benchmark This Existing Design/ Mobile App/ Paper Form? 74
How Do You Gather The User’s Requirements? 74
Why Isn’t This Working As Well As It Should? 75
How Good Is The Competition? 75
You’ve Reached A Stalemate In Your Project; No One Can Decide What To Do Next! 76
Your Client Has Asked For Something “Innovative” That Will Win Awards 76
You’ve Had An Idea But You’re Not Sure That It Will Work 77
Why Is Usability Testing Important? 78
How To Conduct A Usability Test 79
Planning Your Usability Test 79
Conducting A Usability Test 84
Analyzing And Reporting Your Findings 88
A Typical Usability Testing Project Schedule 90
Three Weeks Before Testing 91
Two Weeks Before Testing 91
One Week Before Testing 91
The Week Of The Testing 91
Day Of The Testing (Assuming It’s Only One Day Long) 92
Week After The Testing 92
Contents

Different Types Of Usability Testing 92
Lab-Based Usability Testing 92
Remote Usability Testing 93
Guerilla Usability Testing 94
Resources 95

Chapter 6: Gaining Useful Insights From Competitor Benchmarking 97
When To Perform Competitor Benchmarking 98
Why Is Competitor Benchmarking Important? 98
  Scenario 1: You Or Your Client Has No Existing Product Or Service 98
  Scenario 2: You Or Your Client Has An Existing Product 99
Gathering Ideas 99
How To Perform A Competitor Benchmark 100
  Be Clear On What You Want To Learn From It 100
  Who Should You Benchmark Against? 100
  How Should You Compare One Competitor To Another? 101
What Does A Competitor Benchmark Look Like? 102
  Spreadsheet Checklist 102
  Detailed Analysis 103
  Annotated Screenshots 103
Resources 104

Chapter 7: Conducting Effective Contextual Research 105
When To Conduct Contextual Research 106
Why Is Contextual Research Important? 106
  You Get An Understanding Of The User’s Context Of Use 107
  You Observe More Natural User Behavior 107
  It Encourages You To Leave Your Preconceptions At The Door 107
  It Uncovers Cheatsheets, Workarounds, And Artifacts 108
  Going To Your Users Saves Them Taking Time Out To Come To You 109
How To Conduct Contextual Research 109
  Setting Clear Objectives 109
  Recruiting Interviewees 109
  Preparing Your Research 110
  Conducting Your Research 110
  Taking Photos 111
  Reporting Your Findings 111
Resources 112

Chapter 8: Using Analytics To Uncover Interesting User Behavior 113
Why Are Analytics Important? 114
When To Use Analytics 114
  When Redesigning An Existing Product Or Service 115
  When Designing A New Product Or Proposition 115
  When Fixing A Specific Component Of A Product Such As A Checkout Process On A Website 115
  When Conducting An Expert Review 116
Using Analytics To Help Shape Your Other Ux Deliverables 117
Using Analytics To Help With Requirements Gathering 117
Using Analytics To Help With Task Models 118
Using Analytics To Help With Personas 118
Using Analytics To Help With Wireframing And Protoyping 120
Using Analytics To Help With Your User Research 120
Different Types Of Analytics You Can Use 122
Classic Web Analytics 122
Search Log Analysis 122
A/B And Multivariate Testing 123
How To Use Analytics To Uncover User Behavior 123
Set Your Own Objectives For The Time You Have 124
Get To Know The Analytics Tool 124
What Should You Be Measuring? 125
Collating The Data And Presenting It Back To Clients 127
Resources 128

Chapter 9: Designing, Launching, And Analyzing A Successful Survey 129
When Should You Launch A Survey? 130
How To Design An Online Survey 131
Pros And Cons Of Different Question Types 132
How To Build A Survey Using An Online Tool 134
Create A New Survey 134
How To Launch Your Survey 138
How To Analyze The Results Of A Survey 139
Reporting Your Findings Back To Your Client 141

Chapter 10: Conducting A Useful Expert Review 143
Why Are Expert Reviews Important? 144
When To Conduct An Expert Review 145
How To Conduct An Expert Review 145
Who Are Your Target Users? 145
What Are Your Users’ Key Tasks? 145
Context Of Use 146
Ux Guidelines 146
Conduct Your Review 150
Analyzing And Reporting Your Findings 151
Time To Allow 153
Resources 153

PART III: UX DESIGN TOOLS AND TECHNIQUES 155

Chapter 11: Planning And Running Successful Ideation Workshops 157
Why Are Ideation Workshops Important? 158
When To Run An Ideation Workshop 158
How To Run An Ideation Workshop 158
Planning An Ideation Workshop 158
Workshop Activities 159
Who To Invite 169
Before The Workshop 169
Running The Workshop 171
After The Workshop 171
Resources 171

Chapter 12: Creating Task Models And User Journeys That Convey Real User Behavior 173
Why Are Task Models And User Journeys Important? 174
When To Develop Task Models And User Journeys 174
How To Develop Task Models
- Understanding Users’ Tasks 175
- Identifying Patterns 177
- Producing A Task Model Diagram 179
- What Next? 181
How To Develop User Journeys 182
- User Journey Analysis On An Existing Product 183
- User Journeys And Information Architecture 184
- User Journey Diagram For New Information Architectures 185
Resources 186

Chapter 13: Creating Customer Experience Maps To Help Visualize The User Experience 189
When To Create Customer Experience Maps 190
- You Want To Understand More About How Users Go About Doing A Particular Activity 190
- You Want To Understand How Well A Website Is Meeting The Needs Of It’s Users 191
- You Want To Create A Strategic Document Or Roadmap To Define The Future Development Of A Website Or Service 191
Why Are Customer Experience Maps Important? 192
- They Help You Design More Usable Products And Services 192
- They Help You Understand How Other People See The World 192
- They Help You Compare Different Channels 193
- They Help You Spot Content And Functionality Gaps 193
How To Create A Customer Experience Map
- Step 1: Conduct Some Research With Representative Users 193
- Step 2: Analyze Your Results And Build The User Layer 195
- Step 3: Analyze Your Results And Build The Business Layer 196
- Step 4: Document The Map In A Format That Can Be Edited And Shared 196
Resources 198

Chapter 14: Creating Useful Persona Profiles 199
Why Are Personas Important? 200
When To Develop Personas 200
When Personas Don’t Work 201
How To Create Persona Profiles
Inputs To Personas 201
Developing Personas 203
What Should You Include In Your Personas? 204
Working With Personas 208
Design 208
Strategy And Prioritization 208
Content Creation 208
Evaluation 208
Resources 209

Chapter 15: Designing Usable Information Architectures 211
What Does Information Architecture Encompass? 212
Gathering Requirements 212
Thinking About Users 212
Defining And Designing Processes 213
Planning Content 213
Designing Structures To House Information 213
Designing Navigation 213
Designing Pages, Page Components, And Functional Elements 214
Designing The Search Experience 214
Why Is Information Architecture Important? 215
How To Design A Usable Information Architecture 216
Discovery Tasks 216
Design Tasks 223
Documenting Your Ia In A Sitemap 228
Bringing It All To Life With Sketches And Wireframes 233
Testing Your Interfaces 234
Guiding Your Ia Through The Design And Development Process 234
Post Launch Jobs To Keep An Ia Busy 235
Resources 235

Chapter 16: Using Sketching To Generate And Communicate Ideas 237
When To Sketch 238
Sketch To Generate Ideas Quickly 238
Sketch To Share Ideas Early 238
Sketch To Generate Wireframes 240
Low-Cost Ux With Sketching 241
Why Is Sketching Important? 241
How To Sketch 242
Don't Be Scared 242
Equipment 242
Rapid Sketching Exercise 244
Resources 245
Chapter 17: Designing Great Wireframes

Why Are Wireframes Important? 248
Test Early 248
Share With Clients 248
Brief The Design And Development Team 249
When To Create Wireframes 249
How To Design Wireframes 249
    Before You Start 250
    First Steps 251
    Wireframing 252
Wireframing In Practice 258
    Wireframing Top Tips 259
Resources 261

Chapter 18: Using Prototypes To Bring Your Ideas To Life

What Are Prototypes? 264
When Should You Create Prototypes? 264
The Pros And Cons Of Prototyping 265
    Prototypes Are Quick And Easy 265
    Prototypes Give You Something To Put In Front Of Users 265
    Clients Know What They Are Getting With Prototypes 266
    The Nature Of A Prototype Encourages Useful Feedback 266
    Prototypes Give You Faith That Something Will Work 267
    Prototyping Reveals Design Problems 267
    Prototypes Are Essential For Designing Dynamic Interfaces 267
    Tools Like Axure Give You Wireframes And A Prototype “For Free” 268
    Many Prototype Templates Are Available To Reuse 268
    Prototypes Can Be Time Consuming To Build 268
    Prototypes Can Be Time Consuming To Amend 269
    Quoting Design And Build Time From Prototypes Can Be Difficult For Other Team Members 270
    Prototypes Won’t Always Look Pretty 270
How To Create Prototypes 270
    Paper Prototyping 270
    Low-Fidelity Digital Prototyping 271
    High-Fidelity Digital Prototyping 271
    Prototyping For Mobile 272
    Prototyping With Code 273
Resources 274

PART IV: UX COMPONENTS DECONSTRUCTED

Chapter 19: Navigation Ux Deconstructed

Key User Tasks And Questions 278
Typical Business Goals 278
Example Navigation Wireframe 279

Top Navigation Tips 281
  Involve Users When You Design Your Navigation 281
  Check Your Competitors For Patterns 282
  Use Frequently Searched For Navigation Labels 282
  Design For Mutual Exclusivity 282
  Plan For Every Navigation Scenario 283
  Use Navigation To Drive The Primary Goals Of What You Are Designing 283
  Make Navigation Look Like Navigation 283
  Does Your Navigation Pass The Test? 283

Common Mistakes 284
  Using Brand-Based Navigation Labeling 284
  Navigation That Doesn't Tell You Where You Are Going 284
  Not Involving Users In The Design Process 284
  Not Following Navigation Conventions 284
  Check How Links Will Be Managed 285
  Catch-All Navigation Labeling 285

Resources 286

Chapter 20: Homepage Ux Deconstructed 287

Key User Tasks And Questions 288
  I Know What I'm Looking For; Do You Provide It? 288
  I'm A Returning Customer, Help! 288
  Let Me Get In Contact With You 288
  I'm Lost, Help! 288
  Who Are You And What Do You Do? 288
  Do I Trust This Place? 288
  I Have Come To Do Something Specific, Just Let Me Do It! 288
  Show Me The Latest Content That Is Personalized To Me! 289
  What Is The Latest Information? 289
  Inspire Me And Show Me What Is Popular 289

Typical Homepage Business Goals 289
  Promote New Products, Services, And Campaign Information 289
  Provide Many Routes To Content Via Navigation, Search, And Footer Links 289
  Display Advertising 290
  Display Targeted Information To Logged-In Users 290
  Support The Business Model Of The Site 290
  Make A Great First Impression 290
  Make It Simple For Users To Complete Their Tasks 290
  Communicate The Proposition And Why It Is Unique 290
  Demonstrate That The Site Is Regularly Used And Maintained 290
  Give Users Reasons To Trust You 291
  Support The Fundamental Task 291
  Give Users Ways Of Promoting You In Their Own Networks 291

Example Homepage Wireframe 291
Top Homepage Tips

Make Sure You Have A Signed-Off List Of Requirements For The Page 292
Think About What You Have Already Done That Can Inform This Task 292
Sketch Out Ideas Before Turning To Your Computer 292
Frequently Refer To Your User And Business Goals 293
Avoid Using Lorem Ipsum 293
Test As You Go 293
Strip Out As Much As You Can 293

Common Homepage Mistakes

Thinking That The Homepage Is The Most Important Page On The Site 293
Forgetting About Logged-In Users 293
Ignoring The Needs Of The User 293
Not Making It Clear What The Proposition Is 294
Cramming Too Much Stuff In 294
Not Building Flexibility Into Designs 294
Failure To Communicate New, Popular, And Important Content 294

Resources

Chapter 21: Category Page Ux Deconstructed 297

Key User Tasks And Questions 298
Typical Business Goals Of The Category Page 298
Example Category Page Wireframes 298
Signposting Category Page 298
Product Listing Category Page 300
Top Tips For Designing Category Pages 301
Task Models Are Invaluable 301
User-Centric Language 301
Common Mistakes With Category Pages 301
Inappropriate Advertising 301
Poor Functionality 302

Resources 302

Chapter 22: Search Ux Deconstructed 303

Key User Tasks And Questions 304
Help Users To Find What They're Looking For 304
Help Users If You Don't Have What They Need 304
Show Users How To Spell Something 304
Do The Work For Them 304
Help Users Filter Through A Long List Of Search Results 304
Indicate How Much Content You Have Relating To A Specific Topic 305
Help Users Choose Which Search Result Is The Best 305
Help Users Understand The Context Of What They're Looking For 305
Users Want To Do Some Advanced Searching 305
Typical Business Goals Of A Search Ux
  Give Priority Listings To Promoted/Revenue Generating Content 305
  Promote Related Content 306
  Promote Specific Landing Pages 306
  Provide Results As Fast As Possible 306
  Compensate For User Error 306
  Display Related Advertising 306
  Show What People Who Searched For "X" Ended Up Buying 307
  Allow Users To Compare Functions From Product Listings 307
  Show The User Something Useful They Didn't Know 307

Example Search Results Wireframe 307

Top Search Ux Tips 308
  Work With Your Developers To Make Sure They Can Deliver What You Design 308
  Test Any Solution You Come Up With 308
  Make Sure Users Can Simply Remove Any Filters To Start Again 309
  People Will Expect Performance Like Google—Manage Their Expectations 309
  Provide List And Grid Display Options When Appropriate 309
  Guide Users To The Best Results 309

Common Search Ux Mistakes 309
  Not Helping To Prevent Over-Filtering 309
  Not Providing Useful "No Results" Pages 310
  Failing To Meet Common Search Experience Expectations (Auto Fill) 310
  Not Telling Users How Many Results Their Search Has Found 310
  Lack Of Time Spent Customizing Out-Of-The-Box Search Solutions 310
  Search Results Lack Useful Information 310
  Results Not Defaulting To Relevance Ranking 310
  Making It Difficult To View All Results On One Page 311

Resources 311

Chapter 23: Product Page Ux Deconstructed 313

Key User Tasks And Questions 314
  Is This The One They Want/Need? 314
  Is It In Stock? 314
  How Much Is Delivery? 314
  Allow Users To Get A Good Look At The Product 314
  Show Users How It Is Used And Why They Might Need It 314
  Do Users Need To Buy Anything Else To Make It Work? 315
  Is This A Safe Place To Buy From? 315
  Is It Good Quality? 315
Can They Get It In Different Colors? Is It Available In Their Size? 315
What Is The Return Policy? 315
Users Want To Buy It 315
What Do Other People Think About It? 315
People Who Viewed This Ended Up Buying 315
Let Users Browse To Similar Products 316
What Payment Options Do Users Have? 316
Help! 316

Typical Business Goals
Make It Easy To Buy 316
Make The Product Look As Good As Possible 316
Demonstrate The Benefits 316
Make The Customers Feel They Are Getting A Good Price 316
Use The Opinions Of Others To Help Influence The Customers 317
Upsell Accessories Or Higher-Value Alternatives 317
Add Value By Differentiation 317
Encourage Easy And Fast Online Shopping 317
Use Scarcity To Encourage Sales 317
Use Time-Limited Offers To Promote Sales 317
Remove Reasons Not To Buy 318

Example Product Page Wireframe 318

Top Tips For A Great Product Page Ux
List The User And Business Needs Before You Sketch 319
Design For The Worse Case Scenario 319
Test Early 319
Consider The Product Before You Lay Out The Page 320
Consider Buyer Anxieties And Address Them 320

Common Mistakes
Providing Expert-Level Content For Mainstream Audiences 320
Unclear Calls To Action 320
Photos That Are Not Useful (Small, Don't Show Use, No Zoom) 320
Lack Of Clear Product Key Features 321
Lack Of Video When It's Really Needed 321
Lack Of Clarity Around Source Of Reviews 321
No Stock Or Delivery Information 321
No Reason To Trust The Retailer 321
Lack Of Basic Information Such As Size, Color, And Weight 321

Resources

Chapter 24: Shopping Cart And Checkout Ux Deconstructed 323
Key User Tasks And Questions 324
Typical Business Goals 324
Example Shopping Cart Wireframe 324
Example Checkout Process Wireframes 326
Example Confirmation Wireframe 329

Top Tips For Shopping Cart And Checkout Pages 330
XX CONTENTS

Be Trustworthy 330
Shopping Carts Are Used As Shortlists 331
Keep It Simple 331
Use Forms Best Practice 331
Common Mistakes With The Checkout Page 332
Instilling Fear 332
Assumption Of Context Of Use 332
Resources 333

Chapter 25: Article And Content Page Ux Deconstructed 335
Key User Tasks And Questions 336
Typical Business Goals 336
Example Article Page Wireframe 337
Top Tips For Designing Content Pages 338
Write For On-Screen Reading 338
Provide Somewhere To Go At The End Of The Article 338
Design For Saving And Sharing 338
Common Mistakes 338
Poor Advertising Choices 339
Poor Support For Commenting And User Generated Content 339
Resources 340

Chapter 26: Photo Ux Deconstructed 341
Key User Tasks And Questions 342
What Does It Come With? 342
What Does It Do And What Are The Benefits? 342
Do I Want It And Does It Look Good? 342
Is It Worth Paying More For? 342
Is It The Right One And Will It Fit? 342
How Do I Use It? 342
Typical Business Goals 343
Show The Product In The Best Way Possible 343
Sell A Lifestyle 343
Show Which Accessories Go With It And How They Enhance It 343
Help The Viewer To Imagine Owning/ Experiencing It 343
Show The Key Selling Points 343
Show Quality And Value 343
Examples Of Great Photo Ux 344
Top Tips For Photo Ux 346
Common Mistakes With Photo Ux 347
Resources 348

Chapter 27: Help And Faq Ux Deconstructed 349
Key User Tasks And Questions 350
Typical Business Goals Of The Customer Service Page 350
Example Help Wireframe 350
Top Tips For The Customer Services Page 352
Do You Really Need It? 352
Terminology 352
Current Information 352
A Social Model 352
Common Mistakes With Customer Services Pages 353
Questions, Questions 353
All Part Of The Same Experience 353
Resources 354

Chapter 28: Forms UX Deconstructed 355
Key User Tasks And Questions 356
Typical Business Goals 356
Example Form Wireframes 356
Top Tips For Designing Forms 361
A Form Is A Conversation With Your Users 361
Allow Saving If Necessary 361
Common Mistakes When Designing Forms 362
Harsh Error Messaging 362
Too Many Questions 362
Too Much Legalese 363
Resources 364

Chapter 29: Tables, Charts, And Data UX Deconstructed 365
Key User Tasks And Questions 366
Typical Business Goals 366
Example Table Wireframe 366
Top Tips For Designing Charts And Tables 367
Think About The Format 367
Beware Expert Knowledge 367
Prioritize 367
Test It 368
Common Mistakes When Designing Tables And Charts 368
Showing It All 368
Crammed Design 368
Resources 369

Chapter 30: Great Client UX Deconstructed 371
Why Does A Client Hire You? 372
Clients Know What They Want But Don't Know How To Get There 372
They Don't Have The Budget To Hire A Perm 372
They Haven't Done This Before And Don't Understand It 372
They Have Heard You Are Great! 372
They Want New, Fresh, And Innovative Ideas 372
Top Tips To Provide Better UX Services 372
Spend Time Understanding The Business Properly 373
Understand What Your Client Is Really Trying To Achieve 373
Understand The Relationship 373
Be Prepared To Own The Relationship With The Client 373
Get To The Heart Of The Business 373
Agree On What You Are Going To Do And Do It 373
Take Time To Sit Back And Review Your Progress 374
What Clients Need From Ux Deliverables 374
Quality 374
Visually Attractive And Attention To Detail 374
 Appropriateness 374
Signs Of Project Progress 374
Deliverables Must Be Able To Stand By Themselves 375
Classic Supplier Mistakes That Annoy Clients 375
Thinking Of Yourself As Superior To Your Client 375
Lack Of Professionalism 375
Not Answering Direct Questions With Direct Answers 375
Not Getting To Know Your Client 375
Lack Of Responsiveness 376
Failure To Deliver 376
Resources 376

Chapter 31: Designing For Behavioral Change 377
Using Design Patterns Against The Users 378
Persuasion Principles To Use When For Designing For
Behavioral Change 378
Social Proof 378
Reciprocity 379
Scarcity/ Limited Availability 380
Authority, Endorsement, And Affiliation 381
Trust 381
Problem Mitigation 382
Up-Sell/Cross-Sell Of Related Products 382
Personalization 383
Resources 384

Chapter 32: Designing For Internationalization 385
Top Tips For Internationalization 386
Language 386
Payment Processes And Legal Issues 388
Time, Date, Currency, And More 388
Get Local Input 389
Common Mistakes When Designing For Internationalization 390
Poor Translation 390
Predictability Of Differences For Localization 390
Task 390
Infrastructure 390
Legal 390
Market 392
Translation 392
Culture 392
Resources 393
